Abby Baty Creative Design is my personal brand used for designs and other creative business opportunities. I chose to combine my initials, AB, with the two following letters in the alphabet to represent the creative design emphasis.
The Women’s Power Gym is a fitness service located in New York City, NY, that specializes in female only one-on-one athletic training. Within the uplifting and positive environment, skilled female professional athletes can improve and develop their physical health through our high intensity gym.
Soar by the Sea is a small bird conservatory gift shop located in Shores, Washington. This store sells unique and educational bird-themed gifts which contribute toward the local bird conservatory charities. In addition, 50% of sales will be dedicated to improving Washington state bird habitats.
Pro Core Golf Balls is a golf manufacturing company that is located in Los Angeles, California. Their products include specialized golf balls designed for all weather conditions.
Guilty Pleasure is a modern gourmet burger restaurant that is located in North and South Carolina. While sipping on a specialty cocktail or juicy burger, customers can relax after a long day of work with good company and happy times.
City Scoops Ice Cream is an ice cream manufacturing company that features three city-themed flavors. While mostly sold in major cities, residents are able to enjoy a sweet treat after a busy day at work or school.
These book covers include The Odyssey, Antigone, and Othello. Each cover uses a gradient style background with a pattern repetition to create unity and reflect the story.
AND THE ART OF WOMEN’S WORK

The idea of textiles as an art medium and art form didn’t take hold until recently because of its gendered assignment, and for the fact that weaving, knitting, and sewing were largely dismissed as “women’s work.”
Like language, textile can relay information—the specific colors, techniques, and symbols adorning textiles can denote social rank, record history and folklore, all while acting as a kind of protective covering.

The history of clothing and textiles can be traced back 100,000 years ago. It’s difficult to arrive at a precise timeline, but because textiles are intangible and cannot be preserved as easily as stone tools or bones, it’s harder to reconstruct the details of their development. The significance of textiles is often linked to their role in the economy and the social status of the people who made them. Textiles played a crucial role in the development of early civilizations, as they were used to make clothing, tools, and other objects. They also served as a form of communication, with patterns and symbols used to convey messages.

In ancient times, societies placed great importance on textiles, and this is evident in the art and architecture of many cultures. Textiles were often used to decorate buildings and monuments, and were a symbol of wealth and status. In many societies, textiles were also used as a form of currency, with the value of a piece of fabric determined by the quality of the thread and the skill of the weaver.

As society evolved, so did the use of textiles. Textiles became not only a means of communication, but also a source of artistic expression. Artists and designers began to experiment with new techniques and materials, creating beautiful and intricate designs that continue to inspire modern art. Today, textiles remain an important part of our culture, with designers and artists using them to create unique and meaningful works of art.
Habitat for Humanity is a non-profit organization dedicated to improving the home lives of those in need. This Annual Report includes financial information as well as conceptual design that represents what it means to call home.
Unaudited Combined Financial Statements

Habitat for Humanity's FY2023 financial statements

FY2023 Results

Total Revenue: $3.1 billion
Total Expenses: $2.3 billion
Net Profit: $0.8 billion

FY2023 Highlights

- 70% of revenue from sales
- 20% from donations
- 10% from grants

Serving Others

Habitat for Humanity's strategic plan looks at the number of individuals impacted by our work.

Asia and the Pacific

- 15,000 individuals served
- 2,000 homes built

U.S. and Canada

- 35,000 individuals served
- 5,000 homes built

Latin America, Caribbean

- 20,000 individuals served
- 3,000 homes built

Europe, Middle East, Africa

- 10,000 individuals served
- 1,000 homes built

DEFINITIONS

- New and Rehabilitation: relates to the preservation and improvement of existing homes.
- New and Rehabilitation: relates to the construction of new homes.
- Professional Services: includes home repair services provided by professional organizations, or service delivery and training in the field of home repair.

- Construction: includes home repair services provided by professional organizations, or service delivery and training in the field of home repair.
- Construction: includes home repair services provided by professional organizations, or service delivery and training in the field of home repair.

- Market Development: includes home repair services provided by professional organizations, or service delivery and training in the field of home repair.
- Market Development: includes home repair services provided by professional organizations, or service delivery and training in the field of home repair.

- Program Development: includes home repair services provided by professional organizations, or service delivery and training in the field of home repair.
- Program Development: includes home repair services provided by professional organizations, or service delivery and training in the field of home repair.
Music Midtown is a festival located in Atlanta, Georgia that features all different types of music. With a funky style and uplifting beat, you can enjoy a fun concert full of good vibes.
